## SAFETY DATA SHEET

AUTOCOLOR

Date of issue/Date of revision

: 2 December 2024

**Version** : 1.05

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 | Product | identifier |
|-----|---------|------------|
|     |         |            |

| Product name                     | : AQUABASE PLUS DARK VIOLET |
|----------------------------------|-----------------------------|
| Product code                     | : P991-8920/E1              |
| Product type                     | : Liquid.                   |
| Other means of<br>identification | : Not available.            |
|                                  | 89FH-G4F9-F00J-DF37         |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Product use                      | : Professional applications, Used by spraying.                    |
|----------------------------------|---|
| Use of the substance/<br>mixture | : Coating.  |
| Uses advised against             | : Product is not intended, labelled or packaged for consumer use. |

#### 1.3 Details of the supplier of the safety data sheet

PPG Industries (UK) Ltd. Needham Road, Stowmarket, Suffolk, IP14 2AD, UK Tel: +44 (0) 1449 773 338 PPG Industries Italia S.r.l., Via Comasina, 121, 20161 Milano, Italy Tel: +39 02 6404.1

e-mail address of person : Product.Stewardship.EMEA@ppg.com responsible for this SDS

#### 1.4 Emergency telephone number

#### Supplier

- Company emergency telephone number : +44 (0) 1449 773 338 ( 0900-1600)

## **SECTION 2: Hazards identification**

| 2.1 Classification of the       | substance or mixture |
|---------------------------------|----------------------|
| Product definition              | : Mixture            |
| <b>Classification according</b> | g to UK CLP/GHS      |

Not classified.

The product is not classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements             |   |  |
|--------------------------------|---|--|
| Signal word                    | 1 | No signal word.  |
| Hazard statements              | 1 | No known significant effects or critical hazards.  |
| Precautionary statements       |   |  |
| Prevention                     | 1 | Not applicable.  |
| Response                       | 1 | Not applicable.  |
| Storage                        | : | Not applicable.  |
| Disposal                       | : | Dispose of contents and container in accordance with all local, regional, national and international regulations.<br>P501    |
| Supplemental label<br>elements | : | Contains 2,4,7,9-tetramethyldec-5-yne-4,7-diol. May produce an allergic reaction.<br>Safety data sheet available on request. |

| Code    | : P991-8920/E1     | Date of issue/Date of revision | : 2 December 2024 |
|---------|--------------------|--------------------------------|-------------------|
| AQUABAS | E PLUS DARK VIOLET |                                |                   |
|         |                    |                                |                   |

## **SECTION 2: Hazards identification**

| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | :  | Not applicable.   |
|---|----|---|
| Special packaging requirem  | en | <u>ts</u>   |
| Containers to be fitted<br>with child-resistant<br>fastenings   | :  | Not applicable.   |
| Tactile warning of danger   | :  | Not applicable.   |
| 2.3 Other hazards<br>Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII                   | :  | This mixture does not contain any substances that are assessed to be a PBT or a vPvB. |
| Other hazards which do not result in classification   | :  | None known.   |

## **SECTION 3: Composition/information on ingredients**

| Product/ingredient name                   | Identifiers   | %          | Classification  | Туре    |
|---|---|------------|---|---------|
| 2-butoxyethanol                           | REACH #:<br>01-2119475108-36<br>EC: 203-905-0<br>CAS: 111-76-2<br>Index: 603-014-00-0 | ≥5.0 - <10 | Acute Tox. 4, H302<br>Acute Tox. 3, H331<br>Skin Irrit. 2, H315<br>Eye Irrit. 2, H319 | [1] [2] |
| 2,4,7,9-tetramethyldec-5-yne-<br>4,7-diol | REACH #:<br>01-2119954390-39<br>EC: 204-809-1<br>CAS: 126-86-3                        | <1.0       | Eye Dam. 1, H318<br>Skin Sens. 1B, H317<br>Aquatic Chronic 3,<br>H412                 | [1]     |
|   |   |            | See Section 16 for<br>the full text of the H<br>statements declared<br>above.         |         |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.<br>In case of accidental eye contact, avoid direct exposure to the sun or other sources of UV light as severe irritation including burns may result. These reactions can be delayed – get medical attention if pain, irritation or blistering occurs after contact. |
|-------------|---|
| Inhalation  | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br/>personnel.</li> </ul>  |

| Code : P991-8920/E1                               | Date of issue/Date of revision : 2 December 2024  |
|---|---|
| AQUABASE PLUS DARK VIC                            | )LET  |
| SECTION 4: First aid                              | measures  |
| Skin contact                                      | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and wate<br>or use recognised skin cleanser. Do NOT use solvents or thinners.  |
| Ingestion   | : If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.  |
| Protection of first-aiders                        | : No action shall be taken involving any personal risk or without suitable training.  |
| 4.2 Most important symptom                        | ns and effects, both acute and delayed  |
| Potential acute health effects                    | <u>&gt;</u>   |
| Eye contact                                       | : No known significant effects or critical hazards.   |
| Inhalation  | : No known significant effects or critical hazards.   |
| Skin contact                                      | : No known significant effects or critical hazards.   |
| Ingestion   | : No known significant effects or critical hazards.   |
| Over-exposure signs/symp                          | <u>toms</u>   |
| Eye contact                                       | : No specific data.   |
| Inhalation  | : No specific data.   |
| Skin contact                                      | : No specific data.   |
| Ingestion   | : No specific data.   |
| Specific treatments                               | <ul><li>quantities have been ingested or inhaled.</li><li>No specific treatment.</li></ul>  |
| <b>SECTION 5: Firefigh</b>                        | ting measures   |
| 5.1 Extinguishing media                           |   |
| Suitable extinguishing media                      | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                    | : None known.   |
| 5.2 Special hazards arising f                     | rom the substance or mixture  |
| Hazards from the substance or mixture             | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous combustion products                     | : Decomposition products may include the following materials: carbon oxides   |
| 5.3 Advice for firefighters                       |   |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to British standard BS EN 469 will provide a basic level of protection for chemical incidents. |

| Code     | : P991-8920/E1   | Date of issue/Date of revision | : 2 December 2024 |
|----------|------------------|--------------------------------|-------------------|
| AQUABASE | PLUS DARK VIOLET |                                |                   |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | ote | ctive equipment and emergency procedures   |
|---------------------------------|-----|--|
| For non-emergency<br>personnel  | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Put on appropriate personal<br>protective equipment.   |
| For emergency responders        | :   | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions   | :   | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| 6.3 Methods and material for    | со  | ntainment and cleaning up  |
| Small spill                     | :   | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.   |
| Large spill                     | :   | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| 6.4 Reference to other sections | :   | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

## **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).  |
|--|--|
|  | Materials such as cleaning rags, paper wipes and protective clothing, which are contaminated with the product may spontaneously self-ignite some hours later. To avoid the risks of fires, all contaminated materials should be stored in purpose-built containers or in metal containers with tight-fitting, self-closing lids. Contaminated materials should be removed from the workplace at the end of each working day and be stored outside. |
| Advice on general occupational hygiene | Eating, drinking and smoking should be prohibited in areas where this material is<br>handled, stored and processed. Workers should wash hands and face before<br>eating, drinking and smoking. Remove contaminated clothing and protective<br>equipment before entering eating areas. See also Section 8 for additional<br>information on hygiene measures.  |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

#### 7.3 Specific end use(s)

English (GB)

#### Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758

Code : P991-8920/E1

Date of issue/Date of revision

: 2 December 2024

AQUABASE PLUS DARK VIOLET

## SECTION 7: Handling and storage

See Section 1.2 for Identified uses.

## SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### **Occupational exposure limits**

| Product/ingredient name | Exposure limit values  |
|-------------------------|--|
| 2-butoxyethanol         | EH40/2005 WELs (United Kingdom (UK), 1/2020) Absorbed<br>through skin.<br>STEL 15 minutes: 50 ppm.<br>TWA 8 hours: 25 ppm.<br>STEL 15 minutes: 246 mg/m <sup>3</sup> .<br>TWA 8 hours: 123 mg/m <sup>3</sup> . |

#### **Biological exposure indices**

| Product/ingredient name | Exposure indices   |
|-------------------------|--|
| 2-butoxyethanol         | EH40/2005 BMGVs (United Kingdom (UK), 8/2018)<br>BGV: 240 mmol/mol creatinine, butoxyacetic acid [in urine].<br>Sampling time: post shift. |

Recommended monitoring procedures : Reference should be made to monitoring standards, such as the following: British Standard BS EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) British Standard BS EN 14042 (Workplace atmospheres -Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) British Standard BS EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

| Product/ingredient name                   | Туре                 | Exposure   | Value   | Population                               | Effects                          |
|---|----------------------|--|---|--|----------------------------------|
| 2-butoxyethanol                           | DNEL                 | Long term Oral   | 6.3 mg/kg bw/day                                | General population                       |                                  |
|   | DNEL                 | Short term Oral  | 26.7 mg/kg bw/day                               | General population                       | Systemic                         |
|   | DNEL                 | Long term Inhalation   | 59 mg/m³  | General population                       | Systemic                         |
|   | DNEL                 | Long term Inhalation   | 98 mg/m³  | Workers                                  | Systemic                         |
|   | DNEL                 | Short term Inhalation  | 147 mg/m³                                       | General population                       | Local                            |
|   | DNEL                 | Short term Inhalation  | 246 mg/m <sup>3</sup>                           | Workers                                  | Local                            |
|   | DNEL                 | Short term Inhalation  | 426 mg/m <sup>3</sup>                           | General population                       | Systemic                         |
|   | DNEL                 | Short term Inhalation  | 1091 mg/m³                                      | Workers                                  | Systemic                         |

| 8.2 Exposure controls               |     |  |
|-------------------------------------|-----|--|
| Appropriate engineering<br>controls | :   | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.   |
| Individual protection measu         | res |  |
| Hygiene measures                    | :   | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
| Eye/face protection                 | :   | Safety glasses with side shields.  |
| Skin protection                     |     |  |
| Hand protection                     | :   | Chemical-resistant, impervious gloves complying with an approved standard should be<br>worn at all times when handling chemical products if a risk assessment indicates this is<br>necessary.<br>polyethylene  |
| Body protection                     | :   | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection               | :   | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection              | :   | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Wear a respirator conforming to EN140. Filter type: organic vapour (Type A) and particulate filter P3 |
| Environmental exposure controls     | :   | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.  |

## **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### 9.1 Information on basic physical and chemical properties

| <u>Appearance</u> |                  |
|-------------------|------------------|
| Physical state    | : Liquid.        |
| Colour            | : Colourless.    |
| Odour             | : Faint odour.   |
| Odour threshold   | : Not available. |

#### **SECTION 10: Stability and reactivity 10.1 Reactivity** : No specific test data related to reactivity available for this product or its ingredients. **10.2 Chemical stability** : The product is stable. : Under normal conditions of storage and use, hazardous reactions will not occur. 10.3 Possibility of hazardous reactions 10.4 Conditions to avoid : When exposed to high temperatures may produce hazardous decomposition products. Refer to protective measures listed in sections 7 and 8. **10.5 Incompatible materials** : Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids. : Depending on conditions, decomposition products may include the following **10.6 Hazardous** materials: carbon oxides decomposition products

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**12.6 Other adverse effects** : No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

# 13.1 Waste treatment methods Product Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Hazardous waste

## Waste catalogue
